

CBSI Recreational Game Guidelines for Fall 2020

Parents Responsibility before coming to field:

1. Prior to coming to the field
 - Be observant of your athlete's general physical condition. If your athlete is experiencing cold or flu-like symptoms or is running a fever please notify the head coach and do not bring your athlete to practice or game.
2. You must take your athlete's temperature to ensure they are not running a fever (must be below 100.4)
3. Have your athlete put on clean clothes
4. Have your athlete wash their hands thoroughly
5. Disinfect your athlete's equipment, gloves, bats, helmets, etc.
6. Ensure that your athlete has not traveled to any COVID 19 hot spot recently
7. Coach will certify that the above items have been done when you arrive at the field
8. Coach will do an additional temperate check at field with infrared forehead thermometer (must be below 100.4)

Other leagues we play reserve the right to do a temperature check at field prior to game play.

Spectators/Fans: Please be prepared to follow the guidelines outlined below while enjoying your kid's games.

1. Wherever you are on one of the facilities for practice or games, you must attempt to maintain a 6 ft. or greater distance from others.
2. Preparing for your visit to the park.
 - Seating - We are allowing and encouraging spectators to bring their own chairs, tents and umbrellas, but we ask that you limit tents to family members. Spectator seating in the parks is completely open around the circumference of the fields and adjacent commons areas to the fields. Spread out and enjoy the game!
 - Restrooms - You must use your mask while entering inside porta john.
3. Entering the dugout - We ask that teams not enter the dugout area until dugouts are clear of other team and area is sanitized.
 - Teams will need to make adjustments before, during, and after games during this period. Start by being prepared by having a team supply of wipes and sanitizer.
4. Pregame and During Game - No team or player handshakes or high fives. No group prayers or huddles between teams on the field.
5. Sunflower seeds and gum - No sunflower seeds or gum are allowed anywhere.
6. Plate Meeting - The managers meeting at home plate will be limited to one coach from each team plus the umpire. No players at plate meeting. We ask that is coaches can't maintain the 6ft distance coaches will wear masks or cover ups while engaged in meeting.
7. Recommended Post Game - We suggest using other means of post-game sportsmanship such as tipping your cap, bowing or waving to the other team across the field. No handshake lines will be allowed.

Dugouts:

The dugout is an area on the field where coaches and players will naturally congregate. We need to be mindful of distancing in the dugout. Coaches need to prep players for this and stretch them out.

1. Players may spread out and expand the dugout area where room permits without compromising player safety. You can have a maximum of three coaches in and around the dugout. Only team personnel inside the dugout at all times.
 - Coaches must stress to all players on the importance of keeping our distance while playing together and provide gentle reminders during game play.
2. After each game, teams must clean their dugout of all trash and items. Teams are encouraged to disinfect hard surface areas (quick spray benches, bat racks, fence poles) upon entering and exiting a dugout. Please make these items part of your team equipment list, prioritize them highly, and make this courtesy a source of team pride.
